

**A campaign by the Pesticides Control Board to promote best practices in pest & pesticide management**

Why?

# TO PROTECT CHILDREN FROM PESTICIDES

# PESTICIDE

## INTERACTION & EXPOSURE

work

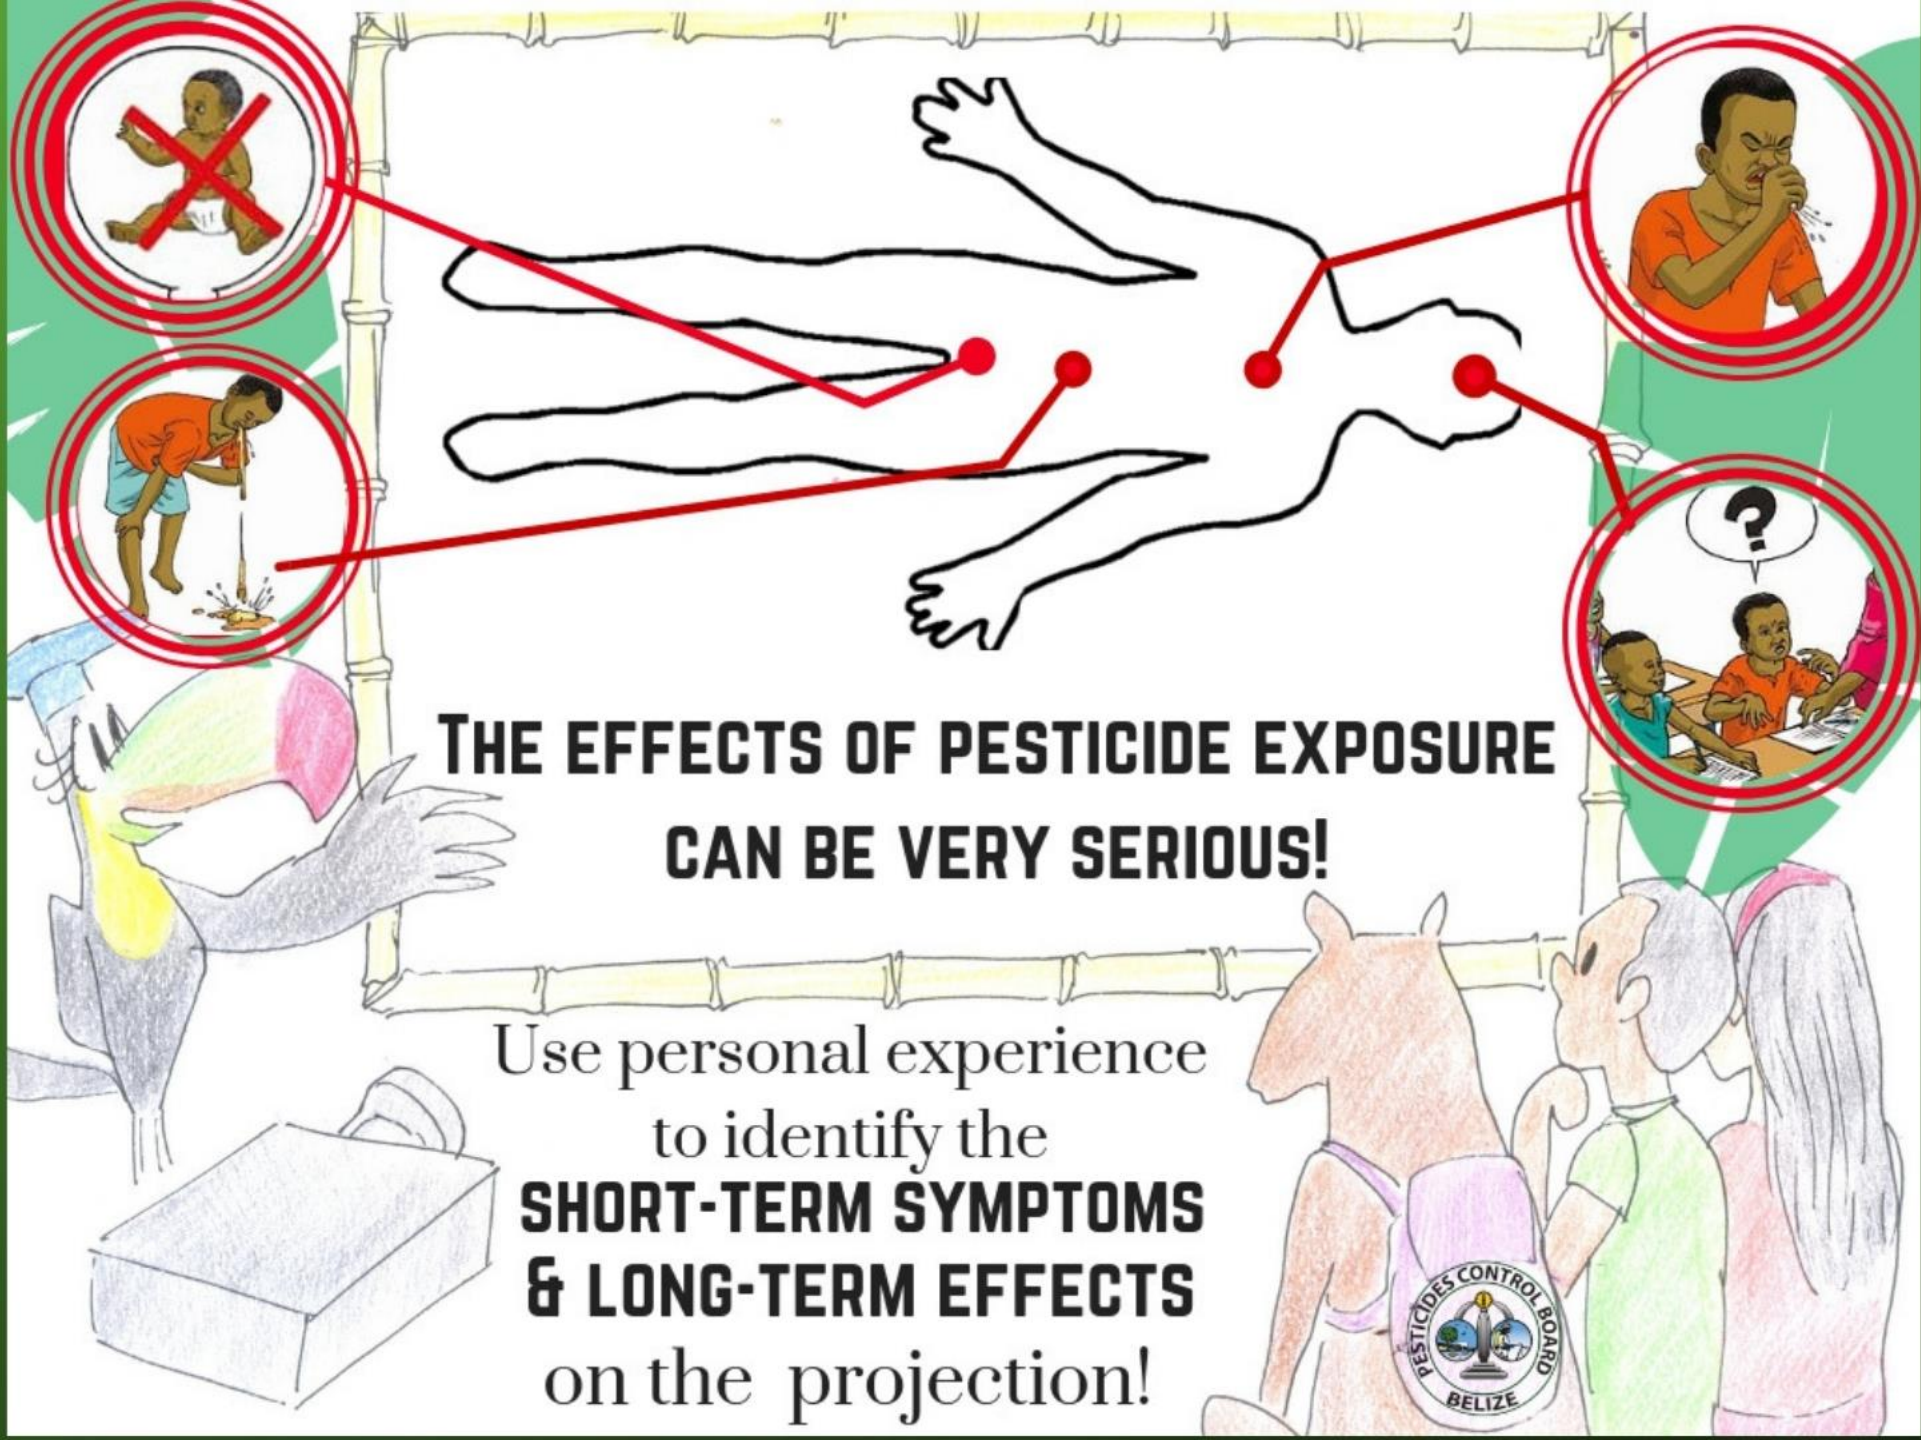

home

community

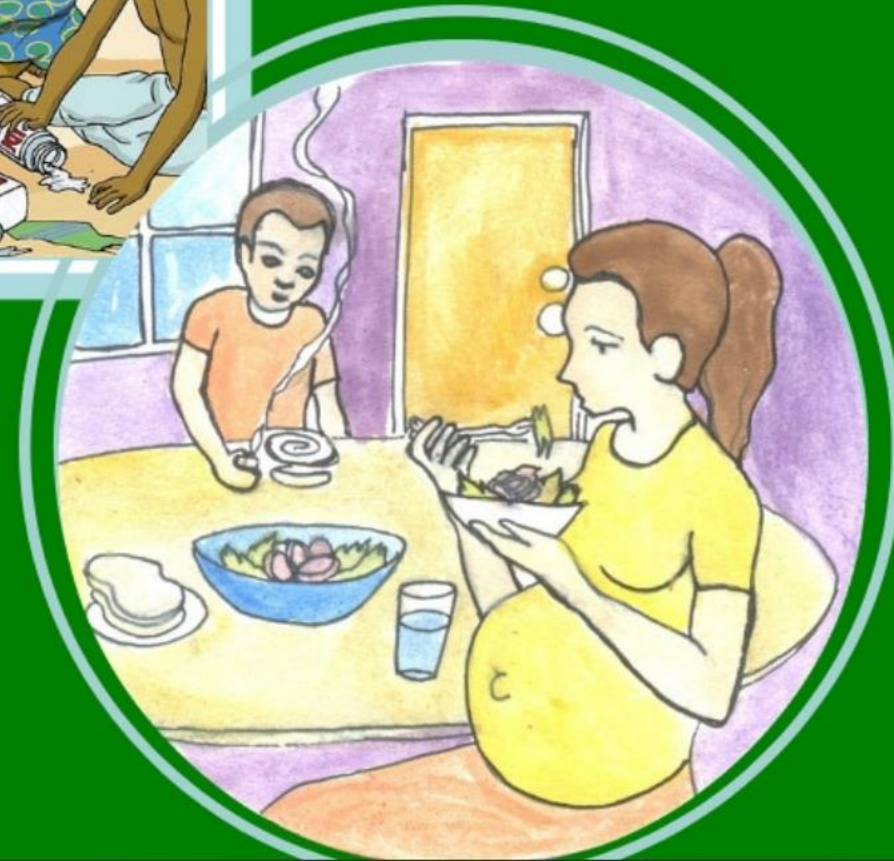

Why are children more at risk than adults?

**INSECTICIDE**

**Herbicide**

**Fungicide**

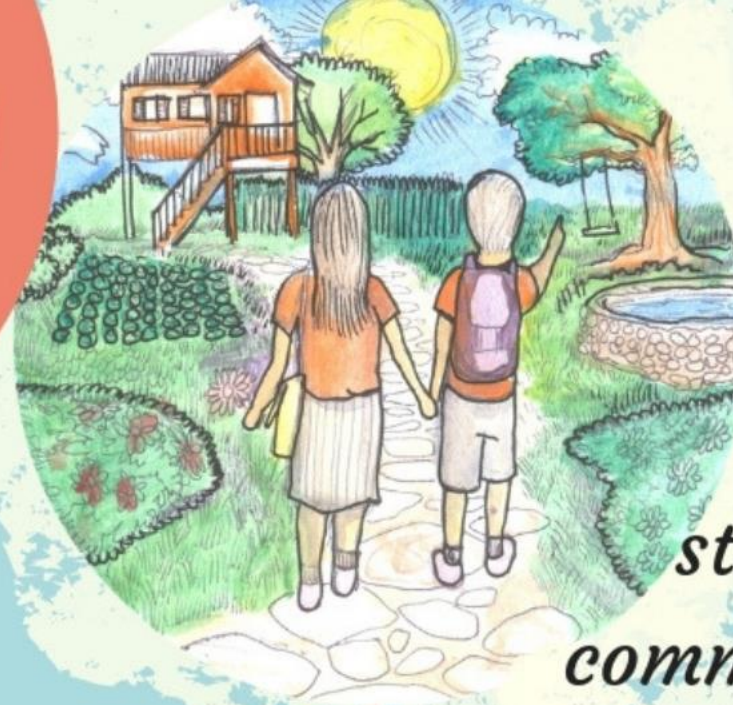

**PESTICIDE**

All contain the  
suffix "**cide**"  
derived from Latin,  
meaning "killer"  
or "the act of killing."

*What can you  
try before a  
pesticide?*

*By protecting  
children from  
pesticides today,  
we will have a  
stronger, healthier  
community tomorrow!*

### **Treating fungal disease**

Mix two tbs of baking soda into a quart of water. Pour into a spray bottle & spray affected areas. Repeat this process every few days until problem ceases.

### **General pest repellent & treatment**

3 hot peppers +3 cloves  
garlic +5 cups water  
+1 tbsp biodegradable  
soap

Blend. Let sit 24 hours.  
Strain. Spray on plants

### **Starve them out!**

**Dry them out!**

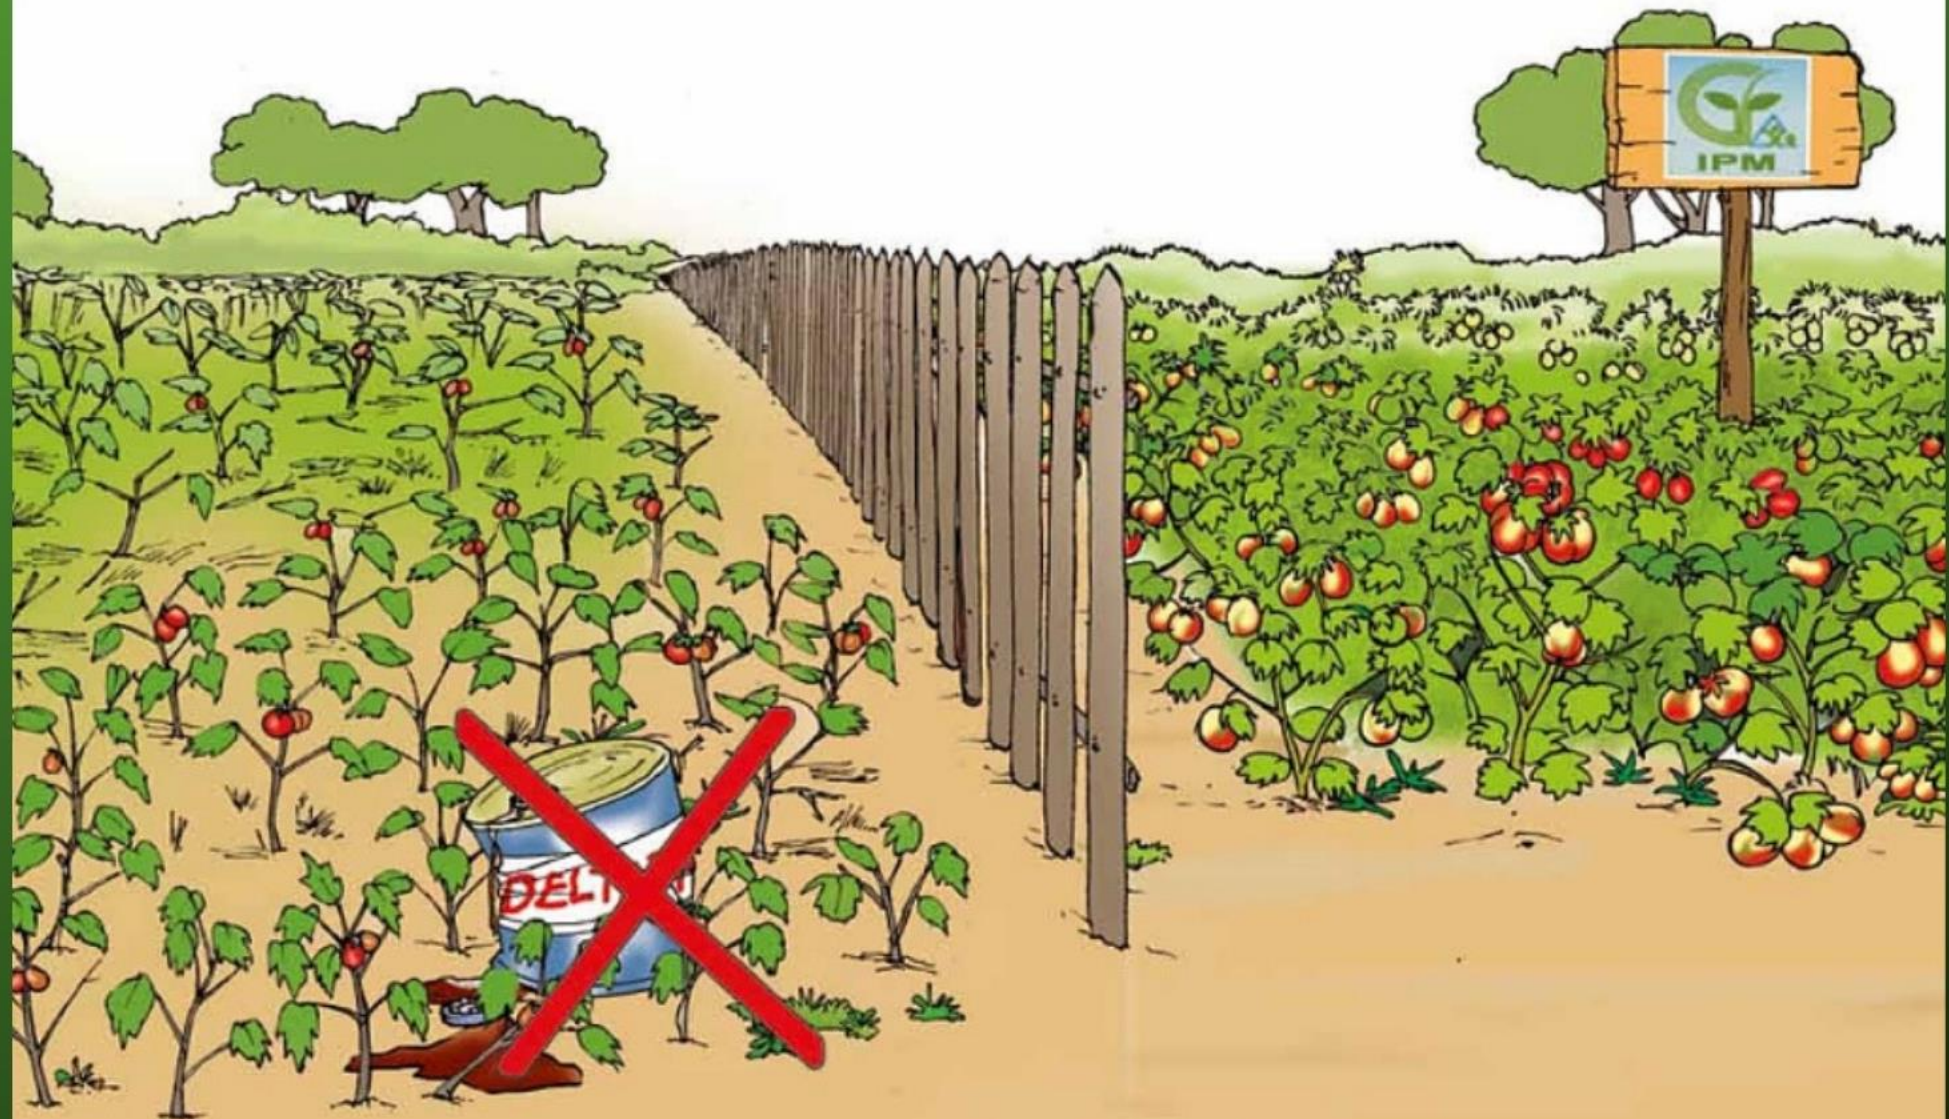

**Keep them out!**

**AVOID THE USE OF  
~~CHEMICAL~~ PESTICIDES  
& USE LESS  
DANGEROUS  
PEST CONTROL  
MEASURES INSTEAD**

**NOW YOU KNOW  
HOW **YOU** CAN  
BE PROTECTED  
FROM PESTICIDES!**

**Thanks for  
joining us**
